

NATURE *and* NURTURE:

“What Epigenetic Research Tells Us About How Experience Re-Programs Our Genes”

January 21, 2016
9:00 AM – 11:00 AM
Baton Rouge Main Library

Speaker:
Dr. Kenneth Eilertson
Pennington Biomedical
Research Center

Join us to discuss scientific discoveries that reveal the large range of environmental, dietary, behavioral, and medical experiences that can significantly affect the future development and health of an individual and their children.

OPEN TO THE PUBLIC
